Please describe your question or comment briefly:

Regarding the article in the Jan 5th Statesman about Idaho Power's request to the IPUC for approval of sales agreements for wind power provided by two proposed projects, I wish to encourage the IPUC to do everything in it's power to promote and encourage all such green-power projects in Idaho.

Also, another article invited comment concerning a proposal for a new natural gas fired electrical generation plant. I feel that ALL funds should be spent on green power and steps in any direction that entail the use of polluting and ever-diminishing and ever more expensive fossil fuels are steps in the wrong direction.
