---

On February 6, 2007, Idaho Power Company (Idaho Power; Company) filed a Petition with the Idaho Public Utilities Commission (Commission) requesting a change in the Company's PURPA obligations for wind-powered small power production facilities that are qualifying facilities (QFs) under Sections 201 and 210 of the Public Utility Regulatory Policies Act of 1978 (PURPA). Idaho Power in its Petition presents a Company-proposed wind integration adjustment to published avoided cost rates, a related request to raise the published rate eligibility cap and a proposal to eliminate the 90%/110% performance band requirement for wind QFs. A Notice of Petition and Notice of Preliminary Procedure was issued in Case No. IPC-E-07-03 on February 16, 2007.

As a matter of preliminary procedure and prior to any procedural scheduling by the Commission, Idaho Power on March 15, 2007, hosted the first workshop in Case No. IPC-E-07-03. At the conclusion of the workshop, Idaho Power and EnerNex, the consultant and co-author of the Wind Integration Study, agreed to undertake additional studies as identified by the workshop participants. Since the first workshop, Rocky Mountain Power and Avista Corporation have also filed cases dealing with the issues raised in Idaho Power's 07-03 and 07-04 (Petition to Clarify Rules Regarding Published Rate Eligibility – Disaggregation and Proposed Revision of Avoided Cost Rates to Include a Daily Load Shape Adjustment), i.e., Case Nos. PAC-E-07-07 and AVU-E-07-02.

YOU ARE HEREBY NOTIFIED that a **second workshop** in Case No. IPC-E-07-03 to address the questions and issues identified at the March 15 workshop will be hosted by Idaho Power Company. The workshop will be held on **JUNE 20, 2007 BEGINNING AT 9:00 A.M.**

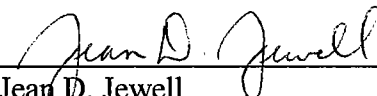

**IN THE BALLROOM OF THE OWYHEE PLAZA HOTEL, 1109 MAIN STREET, BOISE, IDAHO.** Those planning to attend are requested to send an e-mail to Mark Stokes at [mstokes@idahopower.com](mailto:mstokes@idahopower.com) so the Company can obtain a general idea of how many people will be attending.

YOU ARE FURTHER NOTIFIED that **immediately following the above referenced June 20, 2007 workshop**, Commission Staff will facilitate a **discussion of procedure** for processing the PURPA wind cases currently pending before the Commission, i.e., Idaho Power (**IPC-E-07-03** and IPC-E-07-04), PacifiCorp (PAC-E-07-07), and Avista (AVU-E-07-02).

YOU ARE FURTHER NOTIFIED that the Petition in Case No. IPC-E-07-03 and the other PURPA wind cases referred to above may be viewed at the Commission's website, [www.puc.idaho.gov](http://www.puc.idaho.gov) by clicking on "File Room" and "Electric Cases," or can be viewed during regular business hours at the Idaho Public Utilities Commission, 472 W. Washington Street, Boise, Idaho and for the specific utility-related filings at the general business office of Idaho Power Company, 1221 West Idaho Street, Boise, Idaho and the Idaho offices of Avista and PacifiCorp.

YOU ARE FURTHER NOTIFIED that all proceedings in this matter will be conducted pursuant to the Commission's Rules of Procedure, IDAPA 31.01.01.000 *et seq.*

DATED at Boise, Idaho this 4<sup>th</sup> day of June 2007.
