Please describe your question or complaint briefly:

i think idaho power has a lot of gall to even suggest a rate increase. Seems they are trying to push it before we have a new administration. 2002 they made 84 million dollars profit. These are trying times limited income families cant handle another rate increase. The public utilities commision hands them one every time they ask for it. It has got to stop. Now maybe that does not mean much to most of you making maybe 60 70 80 thousand a year but try and live on a retirement of 2300 a month and half to pay idaho power 500 dollars in the winter and the gas company 160 and live on the rest for a familie of four with no medical and no dental trying to hang on and survive without loosing our home. You had better start looking in the direction of the customers before it is too late.

thank you

Please describe your question or comment briefly:

I can't believe you are asking for another raise. That's all we get are raises. Raises in Gas raises in Utility, raises in drugs, raises in rent, raises in groceries. But we sure don't recieve much of a raise on our Social Security. When is it going to end? Then we are ask to donate to help pay others bills. Probably illigals. We are about raises out.
