Please describe your question or comment briefly:

I heard on KBOI news this morning that the rate hike for Idaho Power was approved. If I am not mistaken, hasn't Idaho Power been a bit greedy lately. I know of a few requests last year in fact maybe 2 or 3! How are people supposed to live? My husband and I are very frugal we do not keep up w/ the Jones's however when compnies like Idaho Power or gas etc constantly want rate hikes do they think of the consumer and how it may impact they're lives? Was it really necessary to approve them? Pretty soon families are going to driven from they're homes because they won't be able to afford Power gas Phone Food and Mortgage. The cost of living is getting way out of hand! I feel all of you at the commission should think about that before saying yes to charging costumers more.
