)	ORDER NO. 30532

YOU ARE HEREBY NOTIFIED that on April 1, 2008, Idaho Power Company filed an Application for an accounting order authorizing the Company to revise its depreciation rates for electric plant in service effective August 1, 2008. The Company’s depreciation rates were last changed in October 2003. The depreciation rates proposed by the Company in this case are based on a study completed by Gannett Fleming, Inc. and are applicable to Idaho Power’s electric plant in service as of December 31, 2006. The proposed depreciation rates are based on a straight line, remaining life method, average service life procedure for all electric plant.

YOU ARE FURTHER NOTIFIED that based on depreciable electric plant in service at December 31, 2006 of \$3,467,925,739, the proposed changes in depreciation rates would result in a decrease of \$6,713,451 in the Company’s total annual depreciation expense. Approximately \$6.2 million of the decrease would be allocated to Idaho Power’s Idaho operations.

YOU ARE FURTHER NOTIFIED that the Company requested its Application be processed by Modified Procedure. The Commission will determine after the Company and Staff review the proposed depreciation rates in workshops whether the case may be processed by Modified Procedure. See IDAPA 31.01.01.201-204.

YOU ARE FURTHER NOTIFIED that the Application, supporting workpapers, and exhibits have been filed with the Commission and are available for public inspection during regular business hours at the Commission offices. The Application and workpapers are also available on the Commission’s Website at www.puc.idaho.gov under the “File Room” and then “Electric Cases.”
