Please describe your comment briefly:

After reading Idaho Power's rate increase press release on this site, I'm still opposed to this increase at this time. I am a self employed person. This has been the toughest year for growing my businesses I've had in the last 7. Whether the politicians want to admit it or not, this country (and Idaho) are in a recession. Increasing the cost of basic necessities like electricity during a recession is just wrong. Period. I am requesting as a citizen here in Idaho that this rate increase be turned down by the PUC. Give ratepayers a break during these tough economic times. Thanks. Rick Bean.
