Idaho public Utilities Commission
Statehouse Mail
Boise, Id. 83720

Dear Commissioner,

My home heating bill 1-16-09

was \$227.39 for 3351 KWh.

the bill for 1-19-10 was \$270.50
for 3211 KWh.

Thus a decrease this year of 140 KWh used
but with a cost of \$43.11 more
for less KWh.

I feel Idaho power is doing very well
with such increase for less power.

A steep customer cost with exponential
yearly costs rising into the blue yonder.

Yours truly

Earl D. Olson

Please reconsider 'the tier system' billing process. I have during this economic crisis, reduced my monthly kWh usage by 15% from the previous year. However this system has increased my power bill over 28%. I'm sure it was thought this system would help encourage customers to be energy conscientious, however, most people these days are. Some people have applications or general higher demands. The system I feel is unfair to customers like myself.

My power usage dropped 200 kw in dec 09 from dec 08 yet my bill is higher. I spoke with Idaho power customer service they they stated that the new tiered billing was designed to promote lower usage. So let me ask you why my bill is higher for using less power? Ummm.....I think someone missed the boat!!!!!!
