Please describe your comment briefly:

Citizens Protecting Resources is a non-profit organization based in Jerome County, Idaho. Our members fully support energy education using SO2 sales monies as proposed by Bill Chisholm. Education is absolutely one of the most important elements to prompting people to more efficiently use energy, to conserve energy, and to choose to invest in clean renewable energy sources, which concepts the members of Citizens Protecting Resources encourage and actively work toward achieving.

Mr. Chisholm's concept is a wise investment with regard to Idaho's energy future.
