OF IDAHO POWER COMPANY FOR AN)	CASE NO. IPC-E-08-12
ORDER AUTHORIZING AN AIR)	
CONDITIONER CYCLING PROGRAM)	NOTICE OF APPLICATION
AGREEMENT FOR MOUNTAIN HOME AIR)	
FORCE BASE)	NOTICE OF
)	MODIFIED PROCEDURE
)	
)	ORDER NO. 30582

YOU ARE HEREBY NOTIFIED that on May 23, 2008, Idaho Power Company filed an Application requesting Commission approval of an Air Conditioner Cycling Program Agreement for Mountain Home Air Force Base. Idaho Power currently operates a residential air conditioning cycling program under tariff Schedule 81. The program is an optional service that allows the Company to cycle participating customers' central air conditioners by use of a direct load control device. During 2007, approximately 13,600 customers participated in the program, and the Company estimates the program reduced demand in July 2007 by an estimated 10.8 MW.

YOU ARE FURTHER NOTIFIED that Idaho Power and Mountain Home Air Force Base executed an Agreement to provide for the Air Conditioner Cycling Program on base housing. It would apply only to residential customers who take service pursuant to Schedule 1, although the Air Force Base is a large power service customer taking service from one service point. Approximately 1,100 individual residences are on base property and are served through Mountain Home Air Force Base's Schedule 19 service. The Agreement provides for Air Force Base residences to participate in the program much the same way as is currently offered under Schedule 81. The customer would receive a \$7 per month credit for June, July, and August. Because the Air Force Base is a single customer with multiple residences, however, the Agreement provides for a cumulative credit on the Air Force Base's September bill at the end of the air conditioning season.

YOU ARE FURTHER NOTIFIED that the Commission has determined that the public interest may not require a formal hearing in this matter and will proceed under Modified
