Re: Idaho Power Company's Petition for Changes to the Irrigation Peak Rewards Program

Dear Commission Members:

On behalf of the Idaho Farm Bureau Federation, I want to express our support for the changes to Idaho Power Company's Irrigation Peak Rewards Program as set forth in a stipulation filed by the parties. The Idaho Farm Bureau Federation is a voluntary organization that represents farm and ranching families throughout the state.

We agree that the proposed modifications to the program are in the public interest and believe they will benefit not only irrigators, but all of Idaho Power Company's customers.

We appreciate the opportunity to comment on this matter and urge you to approve the stipulation.

Sincerely,

Frank Priestley, President
Idaho Farm Bureau Federation
