Please describe your comment briefly:

I have a major concern with your choice of contractors for this project. I am a construction worker and an Idahoan, my concern is this contractor bringing out of state workers for this project. The last two built in Idaho, were built with out of state people. This is not right, we have the manpower and the knowledge to build these plants with Local people and contractors. We live here, we pay for the power this plant will generate and the state of Idaho needs the jobs. This is a bad time in our economy with everyone losing their jobs, I really don't believe the people of Idaho will be pleased if you bring in out of state people to do the jobs that we can do. We need these jobs, the state needs the jobs and we need to keep the money here in Idaho. We do not need to send our money to Texas or Louisiana. I am not the only one that feels this way and I'm sure you will be hearing from more people about this issue.

Thank you ,
Russell Blake
