To Whom It May Concern:

When is Idaho Power going
to stop asking for another
raise, to pay their expenses?
It is not right!

IDAHO PUBLIC
UTILITIES COMMISSION

Here I am, 82 years old, trying
to live on a fixed income,
I can not ask for a raise
in my Social Security check.
Those of us that live in
my age bracket and income,
have to rely, every year to
pay our power bills, on
heat assistance.

Please do not grant I. P.
their request for yet
another slice of our
very meager incomes.

during these financial
hard times.

Thank you for your
time and consideration
on this drastic move.

yours truly,

Mrs. J. F. (Miriam) Depew,

Please describe your question or complaint briefly:

I am urgently requesting the PUC to turn down Idaho Power's request for another rate hike. They have had several recently and in light of the economic hardships currently unfolding, ALL of us must make concessions and tighten our belts. Please consider those who are out of work and on fixed incomes, as this particular issue will create another incredible burden for those already stretched to the max. Please, please say NO.

Please describe your comment briefly:

I find it hard to understand that part of the rate increase is for a low water year. The Snake River is running very high which means that water is being released from upstream reservoirs at a time that power generation is not at a high level. Have you seen Shoshone Falls lately! All the projected streamflows I have seen recently show near 100% of normal. It looks like Idaho Power is not immune to the corporate executives that don't get it ie: AIG, GM. They better understand that we are all tightening our belts to get through these tough times, and that needs to include them. I hope that the Commission will use some common sense to rein in this corporate entitlement mentality. Best Regards

Proposed rate increase of 11% - At this economic times, when my salary of \$20,000 /yr working as a secretary at a public school is being consider for a 5% cut by legislature, it seems unbelievable that Idaho Power would ask for an 11% rate hike. Everyone has to cut back in order to survive . . . they can too!
