Idaho Power Company ("Idaho Power" or the "Company") in accordance with Idaho Code §§ 61-501, 502, and 503, and RP 52, hereby respectfully makes Application to the Idaho Public Utilities Commission ("IPUC" or the "Commission") for an Order approving an agreement for a third, one-year continuation of electric service between Idaho Power and the United States Department of Energy ("DOE").

In support of this Application, Idaho Power represents as follows:

I. BACKGROUND

1. The United States Department of Energy, through its Idaho operations office, operates the facilities at the Idaho National Laboratory Site located approximately

50 miles west of Idaho Falls, Idaho. DOE and its predecessors have been customers of Idaho Power for many years. Idaho Power supplies electric service to DOE under a special contract, in accordance with the rates and charges set out in Electric Service Rate Schedule 30 ("Schedule 30") and its successor schedules.

2. The current special contract between Idaho Power and DOE ("2006 Agreement") was approved by the Commission on May 8, 2006, by Order No. 30030 issued in Case No. IPC-E-06-12. The initial term for the 2006 Agreement ran from May 15, 2006, through May 14, 2007. The 2006 Agreement gives DOE the option to request up to four, one-year extensions of the 2006 Agreement. The 2006 Agreement has previously had two additional one-year term extensions, both of which were approved by the Commission. The first extension from May 15, 2007, to May 14, 2008, was approved by Order No. 30314 in Case No. IPC-E-07-11. The second extension from May 15, 2008, to May 14, 2009, was approved by Order No. 30536 in Case No. IPC-E-08-08.

3. Idaho Power and DOE have agreed to extend the 2006 Agreement for a third, one-year term running from May 15, 2009, through May 14, 2010, (the "2009 Extension"). Under the 2009 Extension, electric service is provided under Rate Schedule 30 and, therefore, the rates and charges for providing service under the 2009 Agreement are subject to change in any appropriate ratemaking proceeding. There are no substantive changes to the contract or the rates.

II. RECOMMENDED PROCEDURE

4. Enclosed with this Application is a copy of the 2009 Extension. Because the previous term of the 2006 Agreement expires on May 14, 2009, Idaho Power

requests that the Commission process this Application on an expedited basis and approve the continuation of the previous term of the 2006 Agreement to run until the 2009 Extension is approved.

5. Idaho Power requests that, as was done on the previous two contract extensions, the Commission issue its order approving this third extension with no further process or procedure. The Company has consulted with Commission Staff, and Staff is not opposed to the 2009 Extension and concurs with this recommended procedure.

III. COMMUNICATIONS AND SERVICE OF PLEADINGS

6. Communications and Service of Pleadings with reference to this Application should be sent to the following:

IV. REQUEST FOR RELIEF

7. Idaho Power respectfully requests that the Commission issue an Order with no further process or procedure: (1) approving the 2009 Extension for the continuation of electric service between Idaho Power and the United States Department of Energy and (2) approving the continuation of the previous term of the 2006 Agreement until the Commission issues its order approving the 2009 Extension.

DATED at Boise, Idaho this 14th day of May 2009.
