Please describe your comment briefly:

I believe the way Idaho Power is billing residential customers is unfair I live in a newer all electric house my bill went up \$60 I'm scared to see my next bill after this cold snap I won't be able to afford it my kids are already complaining its cold in the house Idaho Power has assumed everybody has natural gas in their home Hagerman does not have natural gas service we have no choice electric heat pump is my only source of heat I feel I'm being taken advantage of in this case I think Idaho Power didn't take into consideration people that are forced to have an all electric house.

Thank you for your time
