Please describe your comment briefly:

To Whom it May Concern,
I just wanted to leave a brief comment on power rates. I feel we are paying an incredibly low amount for our use of electricity here in Idaho. In order to encourage power conservation there needs to be an increase in rates.
I do appreciate all that Idaho Power is doing to encourage lower use of power, though I feel that it will not work until it hits people financially.
Also I feel the PCA should be used as it was originally designed for...based on hdro output as a credit or surcharge. Not as profit.

Thank you,
Victoria Everett

Please describe your comment briefly:

I heard on 670KBOI this morning that this is the last day for comments re: increasing rates on electricity. This is the first I've heard of it. PLEASE, this is NOT a good time to increase our rates. We had a good water year so that's not an excuse this time. We all have to tighten our budgets and so can Idaho Power; they just need to look for waste within their company.

Thank you.

Mrs. Kathleen LeMaster
