Please describe your comment briefly:

Dear Commissioners, I request that you allow Idaho Power to continue participation in the Northwest Energy Alliance as a means to promote energy efficiency, innovation and sustainability. At a time when electricity needs will increase and hydro-power is declining, it is important to promote creative alternatives that will continue to promote energy efficiency. I am a participant in the Payette Forest Collaboration aimed at animal habitat and forest management improvement through landscape scale treatment in the Payette National Forest. We hope to begin a similar collaboration in the Boise National Forest soon. Idaho Power can be an important partner for buying electricity from woody biomass and other alternative fuel producing facilities that can help diversify and sustain our energy future, as well as creating new jobs.

Thank you for your consideration.

Bob Swandby
