Name of Utility Company: IDAHO POWER
Add to Mailing List: yes

Please describe your comment briefly:

I am glad to hear that we are producing more green power. This kind of production of power using local companys is a plus to both the State of Idaho and Idaho Power. I wish there was more of this kind of generation.

Please describe your comment briefly:
I note that winter (non summer) rate is currently 5.5953 cents per Kilowatt hour and last summer the rate in august was 6.0994 cents per kilowatt hour. The over all demand for electricity is going to go up and the cost of coal, gas, and oil are going to go up. It would seem purdent to lock in a power source that is not dependent on fossil fuel at 7.56 cents per kilowatt hour. This will be very economical if Congress and Presiden Barack Obama pass the cap and tax energy bill.

Sincerly Richard Holen
