I support the smart meters if it will, in fact, increase efficiency.

I DON'T UNDERSTAND WHY THE CUSTOMERS HAVE TO STAND THE COST OF REPLACING METERS. IN EVERY BUSINESS I KNOW, WHEN YOU UPGRADE, YOU HAVE TO STAND THE COST YOURSELF.

How can this company keep raising rates, just this winter my rate doubled, and I heat my house with Intermountain Gas. If they used windmills outside of mountain home more, we wouldn't be lining there pockets.

Please describe your comment briefly:

I am commenting on the new rate increase that Idaho Power Company is purposing I think enough is enough the last increase on my bill jumped \$50.00 from last year to this for the same month it was \$76.00 last year and jumped to \$125.00 for the same month this year. I have a water to air heat pump thats why it was so low I spent alot of money to get that kind of power bill, I can imagine what other people are paying with a regular furnace or some other kind of electric heat I don't care what the increase is for it's getting out of hand. You need to deni this increase we're in tough times now is not the time to keep raising rates.
