Please describe your comment briefly:

is the fund totally company funded? we all take our chances in the market..idacorp stock reduced dividends years ago they never came back up and has continually raised rates..you fund your pension with profits you make and invest..don't ask me for money to fund employee pensions. i am happy with my electric service..i am not happy to see employees ride around with family in the truck or company equipment in their yard..expensive employee perks..please do not give them a rate hike to fund pensions..stop digging operations money out of the customer..run the company right take a course in business management..-by-the-way- passing a rate hike that doesn't go into affect for two years is really playing dirty..dirty politicians..i don't want to discuss this on the phone or any other way..i only put my name on this to give it a sense of authenticity..again..i am not unhappy with the service..i am unhappy with these rate increases and your pitiful ability to have the were-with-all to ask idaho power for an accounting of what they really are funding..i can't believe they even dare to ask for this..let the company cut back on something personal..bonuses..pensions..employee benefits and perks...
