Please describe your comment briefly:

After reading the three requests Id. Power filed with the IPUC that will affect my rates, I need to comment. Seems like one request under the FCA program is penalizing us for being more efficient by assessing a surcharge to make up for the amount they under-collected. How ridiculous is this!!  
I also don't think we should have to pay extra for Idaho Power to fund new pension expenses. I would think with the job market the way it is, there wouldn't be much problem attracting high quality employees. If they want to pay a pension, they should find a way to pay for it out of money they already receive.
