RE: APPROVAL OF TARIFF TO IDAHO POWER'S PROPOSAL TO
REDUCE ELIGIBILITY THRESHOLD FOR LARGE LOAD
CUSTOMERS; CASE NO. IPC-E-10-23

On January 11, 2011, Idaho Power Company filed tariff sheets for Commission approval. The revisions are filed per Commission Order No. 32132 issued in Case No. IPC-E-10-23. The case considered and approved a proposal by the Company to reduce the eligibility threshold for large load customers from 25,000 kW to 20,000 kW.

I have reviewed the Company's tariff filing and find it to be consistent with the Commission's Order. I recommend that the Commission approve the revised tariff as filed.

COMMISSION DECISION

Does the Commission approve the revised tariff?
