Please describe your comment briefly:

Me and my family strongly support the construction of these wind projects. These wind projects have kept my families business from laying off workers through the slow economic times. I think it is time that as a state we look at ways to generate tax income and jobs by utilizing our god given resources. There are several hurdles with the wind electric integration but as a state we need to think outside of the box and make this resource something that all parties can benefit from. I ask the PUC to please approve this project and others like it and continue to make Idaho a leading state when it comes to developing this resource.
