RE: Supplemental Filing – Increase in Rates to Recover Pension Expense
Case No. IPC-E-11-04

Dear Ms. Jewell:

Idaho Power hereby transmits for filing its revised Tariff Schedule 41-3 which was inadvertently left out of the original filing in Case No. IPC-E-11-04. The Non-Metered Service – Variable Energy Charge, per kWh should have been changed from 6.533¢ to 6.629¢ throughout Schedule 41 and the reference on Sheet 41-3 was missed in the original filing.

If you have any questions regarding this supplemental filing, please contact Mike Youngblood at 388-2882 or myoungblood@idahopower.com.

Very truly yours,

A handwritten signature in cursive script that reads "Lisa D. Nordstrom".

SCHEDULE 41
STREET LIGHTING SERVICE
 (Continued)

MONTHLY CHARGES (Continued)

Non-Metered Service – Variable Energy

Energy Charge, per kWh	6.629¢
------------------------	--------

Pole Charges

For Company-owned poles installed after October 5, 1964 required to be used for street lighting only:

	<u>Charge</u>
Wood pole, per pole	\$1.81
Steel pole, per pole	\$7.18

Facilities Charges

Customers assessed a monthly facilities charge prior to June 1, 2004 for the installation of underground circuits will continue to be assessed a monthly facilities charge equal to 1.75 percent of the estimated cost difference between overhead and underground circuits.

"B" - CUSTOMER-OWNED SYSTEM

The Customer's lighting system, including posts or standards, fixtures, initial installation of lamps and underground cables with suitable terminals for connection to the Company's distribution system, is installed and owned by the Customer.

Customer-owned systems installed on or after June 1, 2004 which are constructed, operated, or modified in such a way as to allow for the potential or actual variation in energy usage, such as through, but not limited to, the use of wired outlets or useable plug-ins, are required to be metered in order to record actual energy usage.

Customer-owned systems installed prior to June 1, 2004 that are constructed, operated, or modified in such a way as to allow for the potential or actual variation in energy usage may have the estimated annual variations in energy usage charged the Non-Metered Service – Variable Energy Charge until the street lighting system is converted to Metered Service, or until the potential for variations in energy usage has been eliminated, whichever is sooner.

ENERGY AND MAINTENANCE SERVICE

Energy and Maintenance Service includes operation of the system, energy, lamp renewals, cleaning of glassware, and replacement of defective photocells which are standard to the Company-owned street light units. Service does not include the labor or material cost of replacing cables, standards, broken glassware or fixtures, painting, or refinishing of metal poles. Individual lamps will be replaced on burnout as soon as reasonably possible after notification by the Customer and subject to the Company's operating schedules and requirements.
