2. The Idaho Conservation League's direct and substantial interest in this proceeding arises from the impact to our members served by Idaho Power and our long-term role advocating for public values. As Idaho's largest state-based conservation organization, we have over 20,000 supporters, many members of whom are customers of Idaho Power. In addition to representing the interest of our supporters who are Idaho Power customers, ICL has an organizational interest in promoting the responsible expansion of energy efficiency and renewable energy in Idaho. As the only potential intervenor in this proceeding focused primarily on advocating for investments, policies, and rate designs specifically intended to fully incentivize energy efficiency and conservation, ICL brings a unique and valuable perspective to this proceeding. Because this Commission has directed Idaho utilities to pursue all cost effective energy efficiency and conservation measures, ICL's intervention will not unduly broaden the issues in this proceeding.

3. ICL intends to fully participate in this matter as a party, and if necessary, may introduce evidence, be heard in argument and call, examine, and cross-examine witnesses as may be relevant in this matter. The nature and quality of ICL's intervention in the proceeding is dependant upon the nature and effect of other evidence in this proceeding. ICL intends to seek intervenor funding pursuant to IDAPA 31.01.01.161-165.

WHEREFORE, ICL respectfully requests the Commission grant the foregoing petition.

DATED this 30th day of June 2011.

Respectfully submitted,

  
Benjamin J. Otto  
Idaho Conservation League
