Re: Proposed increase of 8.83 percent to residential customers

The information provided with my last residential electric bill was very depressing. Depressing because even though in the literature it states IPUC is 'sensitive.....in these difficult economic times.....' truly, I believe this is a falsehood.

Also, when the literature further states: "customers continue to pay some of the lowest rates in the country....." Please keep in mind this state also pays some of the LOWEST WAGES IN THE COUNTRY.

I am unemployed and barely hanging on to my home of 20 years – 20 YEARS. I have NEVER PAID ANYTHING LATE IN MY LIFE NOR HAVE I APPLIED FOR OR ASKED FOR ANY FINANCIAL ASSISTANCE.

So will you Commissioners please do me a favor? Please pray I find a good job soon? I need all the prayers I can get.

I thought I'd also send you my resume – do any of you really care about someone like me? Someone who still has the desire and diligence to work – but can't find a good job? Maybe one of you – just one of you – may care enough to help me get a good job, keep my home, and continue to pay my electric bill without complaining about the rate hike to take effect January 1, 2012.

Please prove me wrong that I believe IPUC is not sensitive to people like me.

Sincerely,

Catherine E. Sansotta
