Please describe your comment briefly:

Please do not increase our power/energy rates. With the economy as it is now and our future so uncertain we need something to remain halfway stable.

I am a senior on Social Security and disabled. Things are getting tougher for the older generation to make ends meet. We have not had a cost of living increase with Social Security in 2 years and probably won't receive one again this coming year... if ever. We need to know that there are some things in our beautiful state of Idaho that remain fair. Raising our rates again won't help anyone who needs help. We are already hurting, please don't kick us while we are down with another rate hike.

Thank you.
