Address:
City: Caldwell
State: Idaho
Zip: 83605
Daytime Telephone: 2084599482
Contact E-Mail: paul.alld@gmail.com
Name of Utility Company: self
Acknowledge: acknowledge

Please describe your comment briefly:

I have read the letter from Mr. Runft who represents Mr. Osborne in this matter and would also ask this case to be an open meeting as I am concerned about the subsidized levels of co-generation and the costs to ratepayer's. This project as well as nearly all wind projects and other co-generation projects would never stand on their own merits w/o subsidies and inflated rates. Further, I am concerned about the recent FERC ruling on Bonneville Power where they are forced to take co-generated power even when the Columbia River systems providing ample water for the needs of BPA; even when the system is full and spilling with water for hydro-power. Rate payers get stuck paying inflated prices for electricity in the final analysis.

This meeting needs to be open to public comment. I appreciate IPUC has to do a balancing act and watch out for the interests of all parties in this matter. Rate payer's need to be a part of this process.

Please describe your comment briefly:

I ask that that any hearing with Idaho Power and Dynamis be open to the public as the rate payers will be paying for this project. I feel that this application is premised upon unproven technology, government payments, and tax credits.

I therefore would like to be notified of any hearing.

Respectfully
D.L. Maitland
