Name of Utility Company: Idaho Power  
Acknowledge: acknowledge

Please describe your comment briefly:

I am totally against this request for an increase, as it is based on an inconclusive guess that it will better our state.

Ada county already has a contract with Fortistar Energy which creates power at a considerably lower cost to the consumer (not to mention the lower cost of production).

The Dynamis contract does not guarantee that the waste to energy Project will work or even that the waste to energy Project will probably work. While science and technology make the Dynamis project possible, science and technology have not made the Dynamis project economically feasible.

I hereby request that you turn down this request which will considerably raise the electric rates of Idaho citizens who are already facing economic problems.

Please describe your comment briefly:

Dear Commissioners,

I am having a difficult time understanding why you, as our elected officials, would entertain, sponsor and push through a contract that so overwhelmingly favors Dynamis Corp. at the expense of literally every taxpayer in the state. As I understand it, You have already wasted over \$2mm in taxpayer money to cover the costs associated with the design of Dynamis' project based on 'experimental technologies' that may or may not prove to be reliable. Now you are giving further consideration to committing your constituents to a permanent burden of increased energy costs because Idaho Power will be forced (by energy law) to purchase the energy Dynamis is proposing to generate. You have no idea whether their technology is economically feasible and yet you are willing to sacrifice our tax dollars and energy dollars on the altar of government payments and tax incentives, which are about to expire. What are you thinking??

Idaho Power costs are already exorbitant, and this deal forces them to purchase Dynamis's energy at more than twice the going rate for electricity. Who do you think is going to pay for the extra costs? That's right, we the taxpayers and your constituents. What are you thinking? What is Idaho Power thinking?

I know I don't live in Ada County, but your decision affects my family and every other family that lives in this state!!

Please come to your senses and back away from this ill advised donnybrook.

Thank you for giving me an avenue to comment.

Ed Zimmerman
