Please describe your comment briefly:

I seen on the news that Idaho Power is asking for a rate increase of over **7%**. In the last few years we all have had to cut back but it doesn't look like Idaho Power has. I know a lot of their employees in this area and they say they get anual raise, bonuses and very good benefits each year. It looks to me that is time for Idaho Power and there employees to cut like everybody else has had to. IP rates have gone up enough in the last couple of years. Idaho Power does not need an additional raise. I feel like they think the public should subsidize them. They see gas prices going up, propane & natural gas, TV, phone and about everything else going up so they want their piece of the action too. I urge you to not approve their most recent and future rate increases. It's time for them to tighten their belts like the rest of us have had to do.

Thank You

Jack Paananen

I am writing in regards to the 7 % increase that they are asking for. I just would like to point out the obvious most of us can hardly afford the increases you've taken, some even after you were denied the increase. I personal find your company in complete denial of reality. Your greed is shameful. Your meters are a fraud. I've personal improved every single item to enery star and my useage(not the dollar amount) go up, and up. Why don't you TIGHTEN UP YOUR BELT LIKE THE REST OF US. So, to the P.U.C, I am begging you for myself and those who are already choosig between food or meds Please don't let them take away the warmth for the winter. Thank you

I feel this rate increase (7% according to statesman) is excessive and will be used to increase IDACORP profits. We just had a fixed rate increase. Can you publish a position on this issue?

Thank you

Mike Ansel
