- P.U.C. commissioner's -

This is a response in regards to Idaho Power's recent request for a residential increase of over 7%.

Both my husband and I are totally against the increase. We are tired of Idaho Power paying high salaries (in house) to CEO's and having us pay for those that can't afford it. We have to tighten our belts - so should Idaho Power. We both are retired and trying to live on a very limited income. Gas is continuing to go up, our groceries, etc., when does it need to stop!! You can't even afford going to the Doctor or buying the medicines we need. We are tired of all the freebies the illegals mexicans are getting and their reduced prices or handouts. It needs to stop!!!

Respectfully,

Please describe your comment briefly:

Since the State is an economic hardship and we the people do not have a guaranteed FINANCIAL INCOME, 'WE MUST BITE THE BULLET' until the economy improves. Idaho Power has a guaranteed income 'a monopoly' on power supply no matter what the condition of the economy is. No matter what the hardship. So as the PUC, you have the 'POWER' to delay the increases until the economy improves. Idaho Power is not hurting with it's guaranteed sustaining customer base income. You have the power! Thank You, John Lindsay
