I acknowledge that submitting a comment in a current case constitutes a public record under Idaho Code § 9-337(13) and all information provided by me on this form is available for public and media inspection. Your comment may be reviewed by the utility.

Acknowledge

Public Utility Commission:

I strongly oppose Idaho Power's proposed changes to their net metering program. Such changes could result in fewer installations of alternative energy sources such as solar, leading to more use of non-renewable resources, less conservation and more pollution.

Thank you for your attention to this important issue.

Elise Lufkin
