---

The Staff of the Idaho Public Utilities Commission submits these supplemental comments in response to Commission Order No. 32880, which asks interested persons to provide input on the following issue:

If a net metering customer takes service through multiple meters at one or more premises, should the customer be allowed to apply net metering credits to offset usage on the other meters? If so, what conditions should apply?

### STAFF ANALYSIS

Staff believes the Commission should allow a net metering customer to apply the excess net energy credit from a designated meter to offset usage on additional meters. But to preserve the intent of net metering - that is, to allow a customer to offset usage with self-generation - Staff believes the following conditions must exist to apply credits to offset usage on the aggregated meters:
