Please describe your comment briefly:

I'm tired of these increases. I'm stuck with the highest charging power co.(idaho power), and have no other choice where I can buy my power. I can't get natural gas for heat because the line is on the wapello side of the RR Tracks so I have to use 100% electricity. Idaho Power charges using that tear rate and I end up being bent over a berrial. If they are lousing money, then it is by there own doing and maybe they should sell out to Pacific Power. Aperantly Pacific knows how to run a company!
