**Thank you for the information. I somehow knew that the Idaho PUC would grant this increase. Does the PUC ever say no to Idaho Power?**

Thanks for listening to my wife and I about NOT rising idaho power rates. We live on a budget but as long as your CEO and high management get their money everything is all right.

Thanks a lot. Waste of my time for typing this reply.

**Name of Utility Company:** Idaho Power  
**Acknowledge public record:** True

**Comment:** Im wanting to know why Idaho power is allowed to keep raising the price of power costs. They are the only power company that I know of in the state, let alone in my area. So how is it fair that just because they had a loss of revenue and natural resources that everyone has to pay more per month for the next year, at least. It's not fair at all. There are people that are on fixed incomes that already cannot afford their power bills and now they want to increase the power rate. If I had the resources or the means, I would either go to another company or go solar. But I cannot. IDAHO POWER SHOULD SERIOUSLY CONSIDER what they are going to do to the residents of IDAHO and the other customer they have before they make peoples lives harder. Thanks
