This Intervenor, the Industrial Customers of Idaho Power, is an unincorporated association of large industrial consumers of electricity. All of the members of the Industrial Customers of Idaho Power receive electric utility services from the Applicant under Tariff Schedule 19. These industrial consumers claim a direct and substantial interest in this proceeding in that their ability to participate in the proceeding to determine the prudence of installing new pollution control equipment at Idaho Power's Bridger Coal Plant will have direct impact on the electric rates the industrial customers of Idaho Power will be assessed.

This Intervenor, in its capacity as a representative of industrial consumer's interests, intends to participate herein as a party, and if necessary, to introduce evidence, cross-examine witnesses, call and examine witnesses, and be heard in argument. The nature and quality of

evidence which this Intervenor will introduce is dependent upon the nature and effect of other evidence in this proceeding.

Without the opportunity to intervene herein, this Intervenor would be without any means of participation in this proceeding to determine the status of Idaho Power's demand response programs as they impact the industrial class of customers, and this Intervenor would be unable to participate in proceedings which may have a material impact on its electric rates.

Although not required by this Commission's Rules, the multiple representation by this Intervenor of its members' interests will prevent duplication of effort and aid in the administration of these proceedings.

WHEREFORE, the Industrial Customers of Idaho Power request that this Commission grant its Petition to Intervene in these proceedings and to appear and participate in all matters as may be necessary and appropriate; and to present evidence, call and examine witnesses, present argument and to otherwise fully participate in these proceedings.

DATED this 8th day of July, 2013.
