IDAHO PUBLIC UTILITIES COMMISSION

FROM: KEN + GINNA LAGERGREN

PO BOX 1241 (215 E. MYRTLE ST.)

HAILEY, ID 83333

SUBJECT: IDAHO POWER CO. CASE # IPC-13-16.

WE ARE IDAHO POWER CUSTOMERS AND WE OBJECT TO THEIR USE OF COAL TO SUPPLY ENERGY. WE PREFER THAT THEY INVEST IN WIND + SOLAR POWER TECHNOLOGY RATHER THAN SPENDING ANY MONEY ON COAL PLANT UPGRADES.

IDAHO POWER NEEDS TO CHANGE ITS FOCUS TO CLEAN ENERGY! FOR LITTLE MORE COST TO UPGRADES FOR COAL - THEY COULD BUILD A NATURAL GAS PLANT.

SINCERELY,

KEN + GINNA LAGERGREN

IDAHO PUBLIC  
UTILITIES COMMISSION

IPC-E-13-16

Dear ID P.U.C.,

I am a local business owner and voting citizen of Boise, Idaho. I am extremely concerned about the \$215 million business plan proposed by Idaho Power to upgrade the Jim Bridger Coal burning plant. This is an outdated utility that is threatening the health of our planet and a concern for public health, as well as a bad business plan.

I urge the P.U.C. to review all foreseeable pollution costs before approving this expenditure. I also urge the P.U.C. to become more forward thinking on energy sources that can be prolific and generative in our state.

Sincerely,

Wiesia Domanska-Miville
