Comment: As a resident of Boise, I support your approval of the Boise City Solar Project based on the following merits: it helps Idaho reduce the need for importing coal from neighboring states; it is consistent with Boise's commitment to be a fantastic, sustainable city in which to live by embracing a clean, renewable source of energy; and for the ability of Idaho Power to learn how to interconnect, incorporate and manage this intermittent power into its grid so that more projects like this may follow. Thank you.
