Re: Case No. IPC-E-15-14, Power Cost Adjustment
Compliance Filing – Revised Tariff Schedule 55

Dear Ms. Jewell:

Idaho Power Company hereby submits the enclosed compliance filing in the above-captioned proceeding pursuant to Commission Order No. 33306, reflecting the change in rates with an effective date of June 1, 2015.

Ninth Revised Sheet No. 55-1	Cancelling	Eighth Revised Sheet No. 55-1
Fourth Revised Sheet No. 55-2	Cancelling	Third Revised Sheet No. 55-2
Third Revised Sheet No. 55-3	Cancelling	Second Revised Sheet No. 55-3

If you have any questions regarding this filing, please contact Tami White at 388-6938 or twhite@idahopower.com.

Very truly yours,

Lisa D. Nordstrom

LDN/kkt

Enclosure

SCHEDULE 55
POWER COST ADJUSTMENT

APPLICABILITY

This schedule is applicable to the electric energy delivered to all Idaho retail Customers served under the Company's schedules and Special Contracts. These loads are referred to as "firm" load for purposes of this schedule.

BASE POWER COST

The Base Power Cost of the Company's rates is computed by dividing the sum of the Company's power cost components by firm kWh sales. The power cost components are segmented into three categories: Category 1, Category 2 and Category 3. Category 1 power costs include the sum of fuel expense and purchased power expense (excluding purchases from cogeneration and small power producers), less the sum of off-system surplus sales revenue and revenue from market-based special contract pricing. Category 2 power costs include purchased power expense from cogeneration and small power producers. Category 3 power costs include demand response incentive payments. The Base Power Cost is 2.1052 cents per kWh, which is comprised of Category 1 power costs of 1.1040 cents per kWh, Category 2 power costs of 0.9203 cents per kWh and Category 3 power costs of 0.0809 cents per kWh.

PROJECTED POWER COST

The Projected Power Cost is the Company estimate, expressed in cents per kWh, of the Category 1, Category 2 and Category 3 power cost components for the forecasted time period beginning April 1 each year and ending the following March 31. The Projected Power Cost is 2.3977 cents per kWh, which is comprised of Category 1 power costs of 1.3228 cents per kWh, Category 2 power costs of 1.0179 cents per kWh and Category 3 power costs of 0.0570 cents per kWh.

TRUE-UP AND TRUE-UP OF THE TRUE-UP

The True-up is based upon the difference between the previous Projected Power Cost and the power costs actually incurred. The True-up of the True-up is the difference between the previous year's approved True-Up revenues and actual revenues collected. The total True-up is 0.2483 cents per kWh.

EARNINGS SHARING

Order Nos. 30978 and 32424 directed the Company to share a portion of its earnings above a certain threshold with customers through the annual Power Cost Adjustment. The following rate schedules will receive a rate reduction benefit associated with the Company's 2014 earnings in the form of a cents per kWh rate. The Company's Special Contract customers will receive rate reduction benefits associated with the Company's 2014 earnings in the form of a monthly credit for each month of the rate effective period.

<u>Schedule</u>	<u>Description</u>	<u>¢ per kWh</u>
1	Residential Service	(0.0713)
3	Master Metered Mobile Home Park	(0.0679)
5	Residential – Time-of-Day Pilot Plan	(0.0684)
7	Small General Service	(0.0897)
9S	Large General Service – Secondary	(0.0534)
9P	Large General Service – Primary	(0.0463)

SCHEDULE 55
POWER COST ADJUSTMENT

19S	Large Power Service – Secondary	(0.0286)
19P	Large Power Service – Primary	(0.0286)
19T	Large Power Service – Transmission	(0.0286)
24	Agricultural Irrigation Service	(0.0286)
40	Unmetered General Service	(0.0286)
41	Street Lighting	(0.0286)
42	Traffic Control Lighting	(0.0286)
26	Micron	(0.0286)
29	Simplot	(0.0286)
30	DOE	(0.0286)

SCHEDULE 55
POWER COST ADJUSTMENT
 (Continued)

POWER COST ADJUSTMENT

The Power Cost Adjustment is the sum of: 1) 95 percent of the difference between the Projected Power Costs in Category 1 and the Base Power Costs in Category 1; 2) 100 percent of the difference between the Projected Power Costs in Category 2 and the Base Power Costs in Category 2; 3) 100 percent of the difference between the Projected Power Costs in Category 3 and the Base Power Costs in Category 3; 4) the True-ups; 5) Earnings Sharing; and 6) the transfer of DSM Rider funds.

The monthly Power Cost Adjustment rates applied to the Energy rate of all metered schedules and Special Contracts are shown below. The rates below do not include the monthly Earnings Sharing credits for each of the Special Contract customers (Schedules 26, 29, and 30). The monthly Power Cost Adjustment applied to the per unit charges of the nonmetered schedules is the monthly estimated usage times the cents per kWh rates shown below.

<u>Schedule</u>	<u>Description</u>	<u>¢ per kWh</u>
1	Residential Service	0.4300
3	Mastered Metered Mobile Home Park	0.4333
5	Residential – Time-of-Day Pilot Plan	0.4329
7	Small General Service	0.4116
9S	Large General Service – Secondary	0.4479
9P	Large General Service – Primary	0.4549
9T	Large General Service – Transmission	0.4529
15	Dusk to Dawn Lighting	0.3452
19S	Large Power Service – Secondary	0.4550
19P	Large Power Service – Primary	0.4602
19T	Large Power Service – Transmission	0.4619
24	Agricultural Irrigation Service	0.4435
40	Unmetered General Service	0.4373
41	Street Lighting	0.3990
42	Traffic Control Lighting	0.4560
26	Micron	0.5012
29	Simplot	0.5012
30	DOE	0.5012

EXPIRATION

The Power Cost Adjustment included on this schedule will expire May 31, 2016.
