Hailey id, 83333

Name of Utility Company: Idaho Power  
Acknowledge public record: True

Comment: I urge the IPUC to require Idaho Power to adhere to the 20 year guaranteed payments for the Bellevue solar projects. This is exactly the kind of grassroots, small town solar development that is a win-win for all of us. A project like this will help with carbon reduction and thus a small dent in climate change, help cap energy costs, and will create local jobs. Make IP play by the rules.

Comment: Please allow the development of clean solar power in Blaine County. Idaho Power Co. wants to use a short term rate for the power produced and it only seems fair to me to allow the 20 year rate so investors in clean energy can make it worthwhile. The project will create jobs and provide resiliency in alternative energy.

Comment: Please consider making solar power a financially viable option. It is important that we have the freedom of choice from our energy providers. Thanks
