IDAHO PUBLIC
UTILITIES COMMISSION

BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

IN THE MATTER OF IDAHO POWER)
COMPANY'S APPLICATION FOR)
APPROVAL OF NEW TARIFF SCHEDULE 63,)
A COMMUNITY SOLAR PILOT PROGRAM.)
CASE NO. IPC-E-16-14
PETITION OF SIERRA CLUB TO
INTERVENE

Pursuant to IDAPA 31.01.01.042, Sierra Club hereby submits this petition to intervene in the above captioned matter.

1. Sierra Club is a national, non-profit environmental and conservation organization incorporated under the laws of the State of California, duly qualified to do business in the State of Idaho, with nearly 2,400 Sierra Club members who live and purchase utility services in Idaho, many of whom are residential customers of Idaho Power. The name and address of the intervenor is:

Sierra Club
c/o Zack Waterman
Director, Idaho Sierra Club
503 W Franklin St
Boise, ID 83702
Telephone: (208) 384-1023
Zack.Waterman@sierraclub.org

Copies of all pleadings, production requests, production responses, Commission orders and other documents should be provided to Zack Waterman as noted above and to:

Michael Heckler
3606 N Prospect Way
Garden City, ID 83714
Telephone: (208) 841-5667
Michael.P.Heckler@gmail.com

2. Sierra Club's Idaho members have a direct and substantial interest in this proceeding. Sierra Club members participated in Idaho Power's 2015 Integrated Resource Planning

process and were among those who requested that Idaho Power develop a Community Solar pilot program. This proceeding has environment, health and economic consequences for Sierra Club members who are customers of Idaho Power.

3. Sierra Club's Beyond Coal campaign seeks rapid replacement of fossil-fueled generating units with cleaner forms of energy to eliminate or reduce global climate change emissions, reduce utility bills, and generate renewable energy. Sierra Club's work includes advocating for the implementation of programs that assist its members and utility consumers generally to access renewable energy and increase energy efficiency. The Sierra Club's work includes intervening in dockets at public utility commissions nationwide, submitting comments in numerous state and federal agency energy-related proceedings and rulemakings, attending and speaking at public hearings, speaking to students and civic and other organizations, and holding seminars and symposia - all in support of policies to reduce the impact of climate change and other air pollution by promoting clean energy alternatives and energy efficiency. Sierra Club members have worked tirelessly to promote clean energy alternatives and energy efficiency measures.
4. Sierra Club's participation as an intervenor in this proceeding will not unduly broaden the issues or delay the proceeding because Sierra Club's interest is directly related to the subjects addressed in Idaho Power's application. Sierra Club's involvement in this proceeding will not be duplicative of other parties in this proceeding because no other party adequately represents Sierra Club's interests.

WHEREFORE, Sierra Club respectfully requests that the Commission issue an order granting Sierra Club's permission to intervene in this matter.

Dated this 21st day of July, 2016

Zack Waterman
Director, Idaho Sierra Club
