**THE ENERGY SALES AGREEMENT WITH       )** **ORDER NO. 33596**  
**BOISE CITY SOLAR, LLC                        )**

---

On September 1, 2016, Idaho Power Company filed an Application seeking approval of the First Amendment to its Energy Sales Agreement (ESA) with Boise City Solar, LLC. The ESA falls under the Public Utility Regulatory Policies Act of 1978 (PURPA), and is a contract for the sale and purchase of electric energy generated by the Boise City Solar Project, a PURPA qualifying facility (QF). The Amendment changes the QF’s name in the ESA, corrects a typographical error in Article 7.4 of the ESA, and updates Appendix B to the ESA with corrected information. Idaho Power asked that the Commission approve its Application upon Staff’s review and without further process. Application at 4.

**BACKGROUND**

The Commission approved Idaho Power’s Agreement with Boise City Solar, LLC in 2014. Order No. 33180. In 2015, the parties to the ESA executed an Assignment and Assumption Agreement, whereby Boise City Solar, LLC was assigned and transferred to ID Solar 1, LLC. Application at 2. ID Solar 1, LLC wishes to change the project/QF’s name, as set forth in the ESA, from “Boise City Solar, LLC” to “ID Solar 1.” *Id.*

The parties have identified a typographical error in the ESA, in which the word “Percentage” was omitted from the second sentence of Article 7.4, which should read “Pricing Adjustment Percentage.” *Id.* The parties also agree that the ESA’s Appendix B has incorrect and outdated facility description information. *Id.*

**PROPOSED AMENDMENT**

The proposed Amendment changes the name of the project/QF to “ID Solar 1,” to reflect that Boise City Solar, LLC was assigned and transferred to ID Solar 1, LLC. *Id.* at 2-3. In addition, the Amendment corrects the second sentence of Article 7.4 to properly read “Pricing Adjustment Percentage,” where the word “Percentage” was inadvertently omitted. *Id.* at 3. Also, since the ESA was approved, the QF’s physical characteristics, including its “configuration, design, . . . construction of the Facility, [and] its location” were changed. *Id.*

The changes include that the facility was constructed as a 40 MWac (megawatts converted to alternating current) single axis tracking system, rather than a 39.989 MWac dual axis tracking system, as described in the original ESA. *Id.* According to the Application, the “modified nameplate capacity of 40 MWac is consistent with the Generator Interconnection Agreement.” *Id.* Further, “the change to a single axis tracking system provides no change to the performance requirements of the ESA.” *Id.*

The proposed Amendment deletes the original Appendix B in its entirety, and replaces it with “Replacement Appendix B,” which includes updated and corrected information. *Id.* at 3-4. None of the proposed changes alter the contracting parties’ obligations, nor the terms and conditions of the ESA. *Id.* at 4.

#### **STAFF RECOMMENDATION**

Given the limited scope of the amendment, and finding the proposed changes appropriate, Staff recommended that the Application be approved without further process.

#### **DISCUSSION AND FINDINGS**

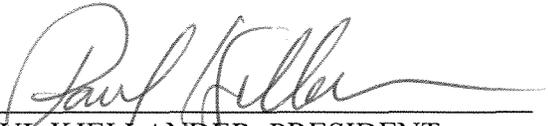

We find that the proposed Amendment is appropriate, given the changes to the project since we first approved the ESA. Further, we find it appropriate to approve the Application without further process, and thus approve the Amendment as proposed.

#### **ORDER**

IT IS HEREBY ORDERED that Idaho Power’s Application to approve the First Amendment to its Energy Sales Agreement with Boise City Solar, LLC – now ID Solar 1, LLC – is approved without change or condition.

THIS IS A FINAL ORDER. Any person interested in this Order may petition for reconsideration within twenty-one (21) days of the service date of this Order. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration. See *Idaho Code* § 61-626.

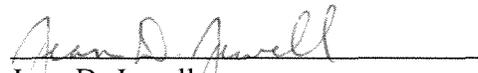

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this 14<sup>th</sup>
