On October 21, 2016, Idaho Power Company filed an Application asking the Commission to adopt revised depreciation rates for its electric plant-in-service and correspondingly adjust Idaho jurisdictional base rates. Application (Case No. IPC-E-16-23) at 1. The proposed adjustment in this Application is an overall rate *increase* of 0.59%. Errata to Application (Case No. IPC-E-16-23). The Company concurrently filed an Application requesting Commission authorization to "(1) accelerate the depreciation schedule for the North Valmy power plant ("Valmy") to allow the plant to be fully depreciated by December 31, 2025; (2) establish a balancing account to track the incremental costs and benefits associated with the accelerated Valmy end-of-life date, and (3) adjust customer rates to recover the associated incremental annual levelized revenue requirement of \$28.50 million with an effective date of June 1, 2017." Application (Case No. IPC-E-16-24) at 1. The result of this Application is an overall *increase* of 2.51%. Errata to Application (Case No. IPC-E-16-24).

With the filings, the Company intends to facilitate a single rate change for customers, and asked the Commission to enter final Orders in both matters by April 1, 2017, to allow it to incorporate any associated rate impacts in its April 14, 2017, Power Cost Adjustment filing (as indicated below, the Company and parties reached agreement on an alternate schedule).

The Commission issued Orders providing notice of the Applications, setting a deadline for interventions, and directing the parties to confer about a schedule for the cases. Order Nos. 33650, 33652. The Commission granted timely-filed motions to intervene in both

cases from the Idaho Irrigation Pumpers Association, Inc.; Micron Technology, Inc.; and the U.S. Department of Energy and the Federal Executive Agencies. Order Nos. 33659, 33660, 33670, 33671, 33673 and 33674. The Commission also granted intervention to Idaho Conservation League and Sierra Club in the North Valmy case, and to the Industrial Customers of Idaho Power (ICIP) in the depreciation rates case. Order Nos. 33672 and 33676.
