RE: Case No. IPC-E-16-32 – In the Matter of the Application of Idaho Power Company for a Determination of Hells Canyon Complex (“HCC”) Relicensing Costs through 2015 as Prudently Incurred

Dear Ms. Hanian:

In Order No. 34031, the Idaho Public Utilities Commission (“Commission”) approved a Stipulation between Idaho Power Company (“Company”), Commission Staff, and the Idaho Irrigation Pumpers Association (“IIPA”) (collectively referred to as “Signing Parties”), providing for interested parties to (1) collaborate on a process for filing future annual reports, including the content of the report, and (2) work to identify the detail requested to be contained within a work order description to allow for the reporting of work orders by projects specific to HCC relicensing work. The Signing Parties agreed that collaboration on both items would be completed by July 1, 2018.

Idaho Power and Commission Staff wish to take additional time to address these outstanding issues and will continue to collaborate on process for content of future annual reports and work order detail throughout 2018, with a completion deadline of December 31, 2018. While the Company has been unable to reach the IIPA to discuss this extension, Idaho Power does not believe IIPA will be negatively impacted by the year-end deadline.

If you have any questions regarding this notification, please contact Senior Regulatory Analyst Courtney Waites at (208) 388-5612 or cwaites@idahopower.com.

Sincerely,

Lisa D. Nordstrom
