Comment: Please accept this comment in favor of keeping the current rate schedules in place for Idaho Power customers with new solar installations. I recognize Idaho Power's position that there is a cost to maintaining the grid; however they need to prove the cost and be more certain with their new pricing structure.

Comment: this request has created a looming uncertainty in what is to come, and that this gives Idaho Power too much leeway to increase consumer pricing before the actual cost to Idaho Power has been proven.
