QUALIFYING FACILITIES)	ORDER NO. 34128

On April 16, 2018, Idahydro, Shorock Hydro, Inc., the J.R. Simplot Company, and the Renewable Energy Coalition jointly petitioned the Commission to modify, amend, or stay existing orders or rules, and to clarify rights and obligations implementing Section 210 of the Public Utility Regulatory Policies Act of 1978 ("PURPA"), 16 U.S.C. §824a-3 *et seq*. Specifically, Petitioners asked the Commission to revisit the 90/110 performance band for non-wind Qualifying Facilities ("QFs"). Petitioners also asked the Commission to modify how Idaho Power calculates the Operations & Maintenance ("O&M") charges that QFs pay to interconnect their facilities with Idaho Power under Schedule 72, as approved in Order No. 24025, so Idaho Power only can charge a QF for the actual O&M costs that Idaho Power incurs to interconnect with that QF's facilities.

On July 25, 2018, Idaho Power filed a cross-petition. J.R. Simplot Co. then filed an Unopposed Motion to Stay Proceedings with the Commission on August 8, 2018, that asked "the Commission [to] issue an order staying all pending deadlines and proceedings in this matter for 28 days or until such time before 28 days that any party moves to lift the stay, and tolling pending deadlines beginning on the date of this filing."

ORDER

IT IS HEREBY ORDERED that all proceedings in this matter are stayed for 28 days from entry of this Order or until such time before 28 days that the Commission grants a party's motion to lift the stay.

IT IS FURTHER ORDERED that all pending deadlines in this matter are tolled for 28 days from the entry of this Order.

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this 15ᵗʰ day of August 2018.
