Name of Utility Company: Idaho Power

Comment: I am concerned about the direction Idaho Power is trying to take in connection with the future of how we will be billed if we have a solar system. I feel that having a personal solar system does nothing but benefit Idaho Power and is something that they should encourage, as it helps them reduce the amount of power they have to generate, especially in the dummer monthswhen electrical use is huge. Thank you for your consideration in this mayter.
