**SUBJECT:** IDAHO POWER COMPANY'S APPLICATION TO REVISE SCHEDULE  
91 ENERGY EFFICIENCY RIDER; CASE NO. IPC-E-19-06.

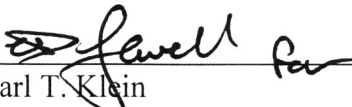

On February 12, 2019, Idaho Power Company applied to the Commission for an order authorizing the Company to revise its Energy Efficiency Rider, Tariff Schedule 91. The Rider pays for the analysis and implementation of demand-side management programs, and is included on customers' monthly bills as the Energy Efficiency Services line item. With this Application, the Company seeks to decrease the Rider collection percentage from 4.75% to 2.75% of base rate revenues, effective June 1, 2019. The Company states that if the proposed change is approved, the price Idaho customers pay for electric service would reflect about a \$10.4 million decrease in annual revenue collection. The Company asks that the case be processed by modified procedure.
