II

FMC is directly affected by the above entitled proceeding in that it has been a purchasing customer of electric service provided by Idaho Power Company.

III

This procedure will impact upon planning by FMC and could affect costs of service to FMC.

IV

FMC has been unable to completely analyze the nature and scope of the proceedings but desires to intervene in this proceeding because of the impact the application may have on FMC.

V

FMC requests that it be allowed to intervene in order that it might present evidence, examine witnesses and generally participate in these proceedings.

VI

FMC's Petition for Leave to Intervene does not prejudice any party, nor does it broaden the issues presented and FMC requests the hearing to be set and that FMC be allowed to intervene therein.

WHEREFORE, FMC prays that its petition be granted and that FMC be allowed to intervene and that all pleadings, exhibits, orders and other documents relating to this matter be served on FMC and its attorneys as follows:
