Comment_description: Currently PacifiCorp lags substantially behind Idaho Power and Avista in its support for the regional Energy Star Homes program in Idaho. It similarly lags Idaho Power in commercial and industrial efficiency initiatives. I believe it would be prudent if PaciCorp were encouraged to review its efficiency programs for new residences, existing residences that are electrically heated and do not qualify for low income weatherization, commercial buildings and industrial facilities. Another recommendation is that it consider establishing a communication mechanism in Idaho for efficiency issues such as Idaho Power's Energy Efficiency Advisory Group.

Ken Eklund
Principal Energy Specialist
Idaho Energy Division
