Re: In the Matter of the Application of Rocky Mountain Power for Approval of  
Reductions in Bonneville Power Administration Regional Exchange Credits

Dear Commissioners:

Rocky Mountain Power ("RMP") has just filed the above Application for the reduction of Bonneville Power Administration ("BPA") Residential Exchange Credits ("Credits"). The Idaho Irrigation Pumpers Association, Inc. ("IIPA") is writing to express its support for RMP's Application.

The loss of the BPA Credits is going to have a dramatic impact on irrigators' power rates as outlined in the Application and will likely have a rippling affect on the delicate farm economy. The IIPA believes that the proposed application of the remaining Credits in the balancing account to the irrigation class at pre-termination levels until such time as they are dissipated is a necessary step in trying to mitigate the loss of the Credits to the irrigation class under the circumstances. A poll of IIPA's members supported this approach and it was communicated to RMP officials prior to the filing of the current Application.

IDaho PUBLIC UTILITIES COMMISSION

May 25, 2007

The IIPA encourages you to act quickly on RMP's Application and looks forward to working with the Commission and Staff in order to find a resolution to the BPA Credit issue.

Very truly yours,

Idaho Irrigation Pumpers Association, Inc.
